Subject: AW: Research retour

Dear Sally Miller.

I don't know if all the articles were published in any magazine, but they were presented on the XIX. International Congress of Lymphology in Freiburg from the 1. to the 6. September 2003 and on the 2004 Congress of the German Lymphological Society in Kassel. So most of the facts I told were published in the abstract books of the different congresses. Some are published in lymphological magazines. Most of them german speaking like "Lymphologie in Forschung und Praxis" ISSN 1433-5255/Juni 2003 etc.

With MLD as I know there doesn't exist a evidence based medizine studies, as there are no ebm studies for other massage techniques.

If I had better published material it would be nice and I would have told you during the lession, but there isn't. Thats a big problem with Lymphology.

Nevertheless I hope that I could help you with this.

Yours sincerely

Dr. Georg Kettenhuber
Dr. Vodder Schule und Wittlinger Therapiezentrum Walchsee

Dear Dr Kettenhuber,

I am writng to you on behalf of MLD Ireland. I met you last week in Austria at my review.

We are looking for articles on any recent research on MLD. You told us about several during our review and we would like to have copies of the information.

Would it be possible for you to send me the articles or the titles of the research and what magazine they were published in so that we can obtain them.

Hope you can help us,

Regards,

Sally Miller.
Vice-Chairperson MLD Ireland
